

Environmental Policy

FPE Global Ltd recognises the importance of protecting and where possible enhancing the environment, in the successful operation of its business. This policy is a declaration of the Boards' intent to ensure that all of FPE Global Ltd associated premises and work sites are effectively managed and that any environmental impacts are minimised in carrying out its business activities. This commitment is to be on a continuous cycle which will ensure that as the company develops, the environmental performance and the prevention of pollution will remain a consideration that will be duly taken at all times.

The management and all employees of FPE Global Ltd are obligated to protect the environment in which it operates, irrespective of it being at a local, national or a global level. This obligation is reflected in the following commitments.

FPE Global Ltd shall:

- Work towards implementing an environmental management system to the ISO 14001 standard,
- Ensure environmental awareness amongst all employees is provided and that sufficient levels of training and internal communications are met, to allow all relevant personnel to meet their environmental responsibilities,
- Meet and, where reasonably practicable, exceed the requirements of all applicable environmental legislation and regulations,
- Ensure delivery, use and storage of chemicals, raw materials and all waste materials are carried out in such a way as to prevent pollution and to minimise risk of pollution to air, land and water,
- Encourage suppliers, contractors and sub-contractors to improve their environmental performance regarding their products, services and transportation,
- Undertake waste minimisation (especially hazardous waste), re-use and recycling schemes wherever possible and dispose of all waste through safe and responsible waste streams,
- Through coordination of route planning and deliveries will seek to realise the dual benefits of reduced fuel consumption and lower exhaust emissions,
- Through innovative design work and specifications, progressively build-in lower energy and resource demand in the manufacture, construction and use by customers of their finished products, processes and systems.

The ultimate responsibility for ensuring that all matters relating to the management of the environment as set within this policy and lies with the Directors and Managers of FPE Global Ltd, who will ensure that sufficient resources are made available to ensure suitable environmental compliance is met.

This Policy will be reviewed annually to ensure that the management system remains effective and continually improved as and when necessary.

Signed:

David Cooper (CEO)
